Mr. Burns always conducts a good hotel, and the people of DuBois find him a good landlord.

Thirty-Six on Probation.

The every evening special meetings conducted in Centennial hall by the Methodist congregation closed last Wednesday night, but for several weeks there will be special evangelistic meetings on Sunday, Monday and Wednesday evenings. At the morning service Sunday thirty-six persons were taken into the church on probation as a result of the special meetings that were in progress almost five weeks. Besides the probationers five were received into the church by letter and two were received from probationary relation into full membership.

Mrs. "Yank" Elder Dead.

Mrs. Elizabeth Elder, widow of "Yank" Elder, formerly a resident of Reynoldsville, died at the home of Jacob Boyer in Washington township, at 1:00 a. m. Sunday, March 18, 1906. Heart trouble was cause of her death. Mrs. Elder retired Saturday evening in apparently good health and a little before one o'clock Mrs. Boyer heard Mrs. Elder breathing hard and went to her bedside and found her dying. Mrs. Elder was 77 years old. She was the mother of Mrs. Matthew Cochran, of this place. Funeral service was held in the M. E. church at Sandy Valley yesterday afternoon, conducted by Rev. J. C. McEntire. Interment was made in the Smith cemetery. Priester Bros., undertakers of this place, had charge of the funeral.

Grange Organization Postponed.

J. K. Womeldorf and J. M. Norris, accompanied by several of the gentler sex, went to Zufall school house, "Dutch" Paradise, Monday night to organize a grange, but the inclement weather kept so many of the would-be-grangers at home that Messrs. Womeldorf and Norris decided to postpone the organization of new grange for two weeks. It was a very bad night to be out and in the blinding wind and snow the travelers got lost on their way home, which made the homeward trip much longer than it otherwise would have been. Along a lonely piece of the road, with woods on both side of highway, an animal crossed the road ahead of the team. The girls declared it was a bear, but the men thought it was a skunk. However, they did not follow the animal to find out whether bear or skunk.

Mrs. A. D. McKay conducted a prayer meeting at 2:30 p. m. Sunday in the Presbyterian church for women only, and Rev. Scherer held a meeting at 4:00 p. m. in same church for men only.

"In a Woman's Power" was played at the Reynolds opera house last night.

NEW THEATRE SURE.

Work Will be Started Next Week if Weather is Favorable—It Will be a Modern Play House.

Twenty men of this place have formed a syndicate and will build a \$30,000 opera house this year. Work on the new opera house will be started next week if the weather is favorable. It will be erected on the lot where Contractor Thomas E. Evans' office is now located, formerly Solomon Shaffer's office, opposite the L. O. O. F. block. The buildings now on the lot will be moved to a lot on Grant street, near Fourth street.

The new opera house building will occupy the entire lot, 60 x 163 feet. There will be two store rooms on first floor front, with dwelling rooms over the store rooms. There will be a twelve foot hall entrance to opera house from Main street, between the two store rooms. The opera house will have a large gallery and will be an up-to-date play house in every respect. The stage will be 40 x 60 feet. The seating capacity of the opera house will be at least 1,000. It will be a brick fire proof building. Thomas E. Evans has the contract to build the opera house. It is the intention to have the new theatre ready to open with the theatrical season next fall.

Located on a Farm.

James M. Moore, wife and daughter, Miss Iva, who went to El Reno, Oklahoma, early in September of last year, have located on a farm near Aline, Oklahoma. We received a letter from Mrs. Moore last week, giving new address for THE STAR, in which she said: "This is a fine farming country. A man can farm 100 acres much easier here than a small farm in the east. The people are sowing oats, making garden and making ready to plant corn. The wheat gives promise of a good crop this year. The plum trees are in bloom. The weather has been lovely all winter, with exception of a few windy days. Twice snow fell, December 30th and January 10th. The first fall melted as it fell and the second fall lasted one day. Oklahoma has its drawbacks as well as other places, and the worst feature of our experience thus far is the wind. You see more mud in Pennsylvania in one week than we have seen all winter."

The Moving Pictures.

Edison's moving pictures in color were displayed last night at the First Presbyterian church before a large audience and gave universal satisfaction. The display included the great Durbar and many other interesting scenes, which were given in connection with ones of comedy and magic, making it an entertainment of considerable merit. To-night at the church entirely new pictures will be presented, including "Jack and the Bean Stalk," Fall of "Napoleon," etc.—The Bradford Era, Bradford, Pa. At Assembly hall April 2nd.

Two Games Basket Ball.

The Clarion State Normal basket ball team will play the Enterprise Athletic team at this place tomorrow, Thursday, evening, March 22. Game called at 8:30.

On Monday evening of next week, March 26, the first team from Kiskiminitas will play the Enterprise Athletic team in the Enterprise Athletic Association rooms in this place. Game called at 8:30. Admission 25 cents. Special trolley for Punxsutawney after the game.

Will Play Again Friday Night.

The able company which produced the stirring melodrama "In a Woman's Power" at the Reynolds opera house last night to a well pleased audience will play the same bill again on Friday, March 23. If you want to know anything about the show ask those who attended last night. Seats on sale Friday morning at the Stoke drug store.

LOCAL TALENT MINSTRELS.

Presented a Program of Progressive Novelties and Typhoon of Merriment.

The Jeffersonian Gold Medal Minstrels, local talent, gave two first-class entertainments in the Reynolds opera house last Friday and Saturday nights. Large audiences both nights. Some people were so well pleased with the show Friday night that they attended the second night. It was really a good minstrel show. The boys all performed like professionals. The singing was excellent. Master Earl Hanna captivated the audience with his songs. The "original musical comedy" by J. A. Blaydon, C. H. Reynolds and George Gelsler, and the laughable comedy duologue, "The Lucky Chance," by Leonard Harris and John Thornton were leading features of the entertainment, and professional artists that travel through this section seldom, if ever, perform in more pleasing and artistic manner than was done in these sketches.

The entertainment opened with an overture by Blaydon's orchestra, a first-class musical organization, and closed with a bright, sparkling mélange of musical burlesque and the latest musical hits and terpsichorean novelties entitled, "The Jungle King."

McMillen was very clever in releasing himself from a chair to which he was tied with a clothes line by two persons out of the audience.

Messrs. Collins and Jenkins, modern song and dance artists, pleased the audience.

The company is composed of the following persons: C. H. Reynolds, manager, George L. Gelsler assistant manager, A. H. Haskins musical director, J. A. Blaydon stage manager and chief electrician, H. B. King chorus master, J. W. Dawson manager, J. H. Thornton, Law Sykes, Carl Kirk, Leonard Harris, Craig King, John W. Thornton, Frank King, Harry Copping, Thomas Collins, William Jenkins, F. P. Alexander, Richard Ramsey, Earl Hanna, Walter Irwin, McMillen, Rhoads.

Hope It is a False Insinuation.

A game of basket ball was to have been played between the Reynoldsville High school boys and girls and the boys and girls of Beechwoods last Saturday evening, but the Reynoldsville ladies failed to appear because their champion player had the ligaments of her finger stretched in a previous game with the Beechwoods girls. The Beechwoods girls have never been defeated, and in any game played by them this year their opponents have not scored a single field goal, so the fear of the Reynoldsville and Punxsutawney girls is in part accounted for. The "Merry Milk Maids," as they were called by the "Lightning Bugs" of Reynoldsville, were very much pleased with the treatment they received from the Brookville girls when they played at the county seat, but did not express a good opinion of the Reynoldsville bugs.—DuBois Express.

We were not present when the Beechwoods girls played here and do not know how they were treated, but hope the above insinuation is false. Every basket ball team, foot ball team or base ball team that comes to Reynoldsville should be given fair treatment, whether they win or are defeated. Rowdiness is unbecoming to boys or girls, men or women. Treat visitors in Reynoldsville as you would want them to treat you in other towns.

Reynoldsville Summer School.

Reynoldsville's summer school begins Monday, May 14th, and will continue eight weeks. The purpose of the school is sevenfold. To give instruction (1) to teachers of elementary schools who desire to pursue further study; (2) to teachers who desire to review before taking teachers' examination; (3) to students who wish to prepare themselves for teaching; (4) to high school students who have college requirements to satisfy; (5) to public school pupils who have failed or who desire to make themselves stronger in their grades; (6) to anyone desiring special work, as in French or German; (7) to beginners who wish to get a start before regular term opens.

There will be a corps of competent teachers in charge. The tuition for normal and high school work will be \$7.00 per term or \$1.00 per week for less than term. For grammar, intermediate and primary instruction \$5.00 or 75 cents per week. Tuition due at enrollment. Application should be made at an early date. Address, C. J. SCOTT.

Your Baby

Would look so sweet in one of our gowns. We have them all styles and prices. Come in and look them over. No trouble to show them. Reynoldsville Hardware Company.

Never before has there been such a large stock of floor coverings shown in this town than we have this spring. We have over 50 patterns of 9 ft. x 12 ft. rugs from \$5.00 to \$50.00, and over 7,000 yards of carpet from 20c to \$1.60 per yard. Come and see our stock; no trouble to show it. J. R. Hillis & Co.

Luck and Chance.

Luck and chance don't figure in the making of Prizer Stoves and Ranges. They are the result of good materials, careful workmanship and the best experience in stove making. They contain many good ideas that lighten kitchen work and add to the comfort and convenience of the house-keeper. Come in and let us tell you about them. Sold and guaranteed by Reynoldsville Hardware Company.

Moving Pictures—Natural Colors.

The motion picture entertainment at the Academy of Music, Friday evening was one of the best ever given here and the audience in attendance were delighted. The color scheme and noise effects were well carried out. The pictures should be seen to be appreciated.—The Morning Star, Meadville, Pa. At Assembly hall Monday, April 2nd.

BUSY HUM OF INDUSTRY

PITTSBURG INDUSTRIAL IRON WORKS HAS MANY ORDERS.

Under New Management the Plant gives Employment to One Hundred and Ten Men and Needs More.

One day last week we visited the Pittsburg Industrial Iron Works, a half mile south of town, our first visit to the plant since the controlling interest of the American Production Company was purchased by C. F. Dickinson, J. S. Beckwith and O. L. Schlumpf, three energetic and enterprising young men of Pittsburg, who had the name of plant changed from American Production Co. to Pittsburg Industrial Iron Works. We were somewhat surprised at the increased hum of industry and the business air that now prevades all departments of the plant. A person is soon impressed with the fact that new life and vim have been put into the plant by the noise, din, hustle and bustle in the entire works. If there is any person a little pessimistic about the plant being a good industry for the town under its present management, a visit to the works will certainly convert them to an optimist about it and make them wish we had several more such industries in town.

At present one hundred and ten men are employed at this plant, ninety of whom are skilled workmen. Sixty more skilled men are wanted and are being advertised for. The works are equipped to give employment to one hundred and fifty skilled workmen, and there are enough orders in now to give that number of men employment several months, and still the orders are coming in. There are orders in now for one hundred tons of castings, dredge booms for Panama canal, derrick boat 25 feet wide, 84 feet long and 6 feet deep for U. S. engineer at Grand Rapids, Mich., five pulverizers for Newaygo Cement Co. of Newaygo, Mich., Ohio river dam work, brick yard work and considerable miscellaneous work in small orders.

The plant has just completed derrick work for T. A. Gillespie & Co.'s filtration plant in Pittsburg.

The foundry and machine shops are now under one roof, the building being 75 x 275 feet, but the building is too small for both departments and the machine shop will be moved into the main building to give the entire building to foundry work. The main building is 65 x 300 feet and will be used for machine shop, general shop and blacksmith shop. The machine shop is equipped with modern machinery and tools for general line of machine work, and the general shop will be equipped with up-to-date boiler shop tools. There is a 10-ton crane and a 10-ton cupola in the foundry. Power for operating the machinery is furnished by one 250 Kw. Westinghouse generator direct connected to a Buckeye engine, and a 50 kw. Westinghouse generator furnishes power to operate the crane in the foundry. The power equipment includes two 150 horse-power horizontal tubular boilers. The pattern shop is a fire proof building 25 x 50 feet, equipped with modern wood working tools. A two-story building 26 x 40 feet contains the works, offices and drafting rooms. The general office is located in the Westinghouse building in Pittsburg.

C. F. Dickinson is president, J. S. Beckwith secretary and treasurer and O. L. Schlumpf general manager and chief engineer. These gentlemen were formerly in the employ of Thomas Carlin's Sons Company in Allegheny City, Mr. Dickinson as vice-president, Mr. Beckwith as general sales manager, and Mr. Schlumpf as chief engineer and superintendent.
